20 November 2016

27th Sunday after Pentecost

20 Листопада 2016 р.

TODAY THE JUBILEE YEAR COMES TO A CLOSE A few hours before our alarm clocks (or roosters?) went off this morning, Pope Francis was closing and sealing the HOLY DOOR at St. Peter's Basilica in Rome. He had declared a surprise Jubilee Year as he saw that it would be very good for the Church (us) and the world if we spent a good deal of time thinking about what "mercy" is all about and explored new opportunities to show mercy in every possible situation that our personal life gives us. Yes, the Holy Doors close around the world. That uniquely Catholic practice where we make an actual physical pilgrimage and perform certain signs to show that our hearts and lives truly belong to the Lord (Confession, Holy Communion, Prayers, Acts of Mercy) and then we physically pass through doors - as another sign that we, body and soul, have passed into a new life. We do this all the time by the Sacraments (which all involve physical actions and symbols) and by using things like Rosary beads (asking Mary's intercession) or Chotky knots (Jesus Prayer). But we appreciate it all, because its part of our human nature. What's are words of friendship or agreement without the handshake? How much more real is telling someone that you love them when you give them a hug or perform some action to prove it (even dying for them... John 10:18 and 15:13)? Actions are greater than mere words we say. This is true. May our actions of mercy show the world that the Love of Christ is real and active!

Pylypivka or St. Philip's Fast

Ukrainian Catholics refer to the pre-Christmas fast period as Pylypivka or St. Philip's Fast, as it always begins on the feast of St. Philip the Apostle, November 15. Pylypivka is a time of preparation before Christmas. The Church offers this time to remind us of the great celebration of God's love that we will soon be observing as we again focus on His birth among us. For more information on St. Philip's Fast go to: www.archeparchy.ca/liturgy/philip_fast.htm
